LUXURY SAFARIS

Going on safari doesn't mean you have to rough it up! If you'd like to be pampered, enjoy great accommodation, food and wine, this is the option for you. A great option is to combine this type of safari with a few nights in the beautiful Cape Town.

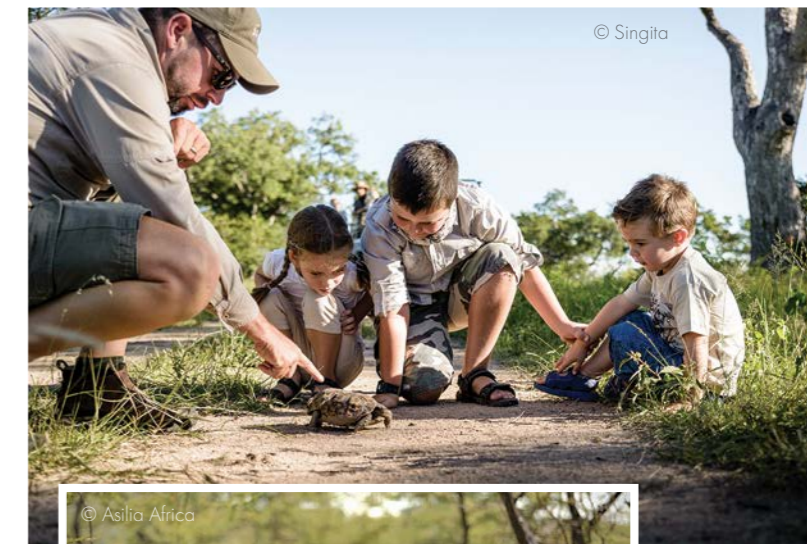

AUTHENTIC AFRICA

If you're looking for more of an adventure why not try out one of luxury tented camps or a walking safari camp? You will feel closer to nature while experiencing wildlife up close either from the comfort of your tent or out on a morning bush walk.

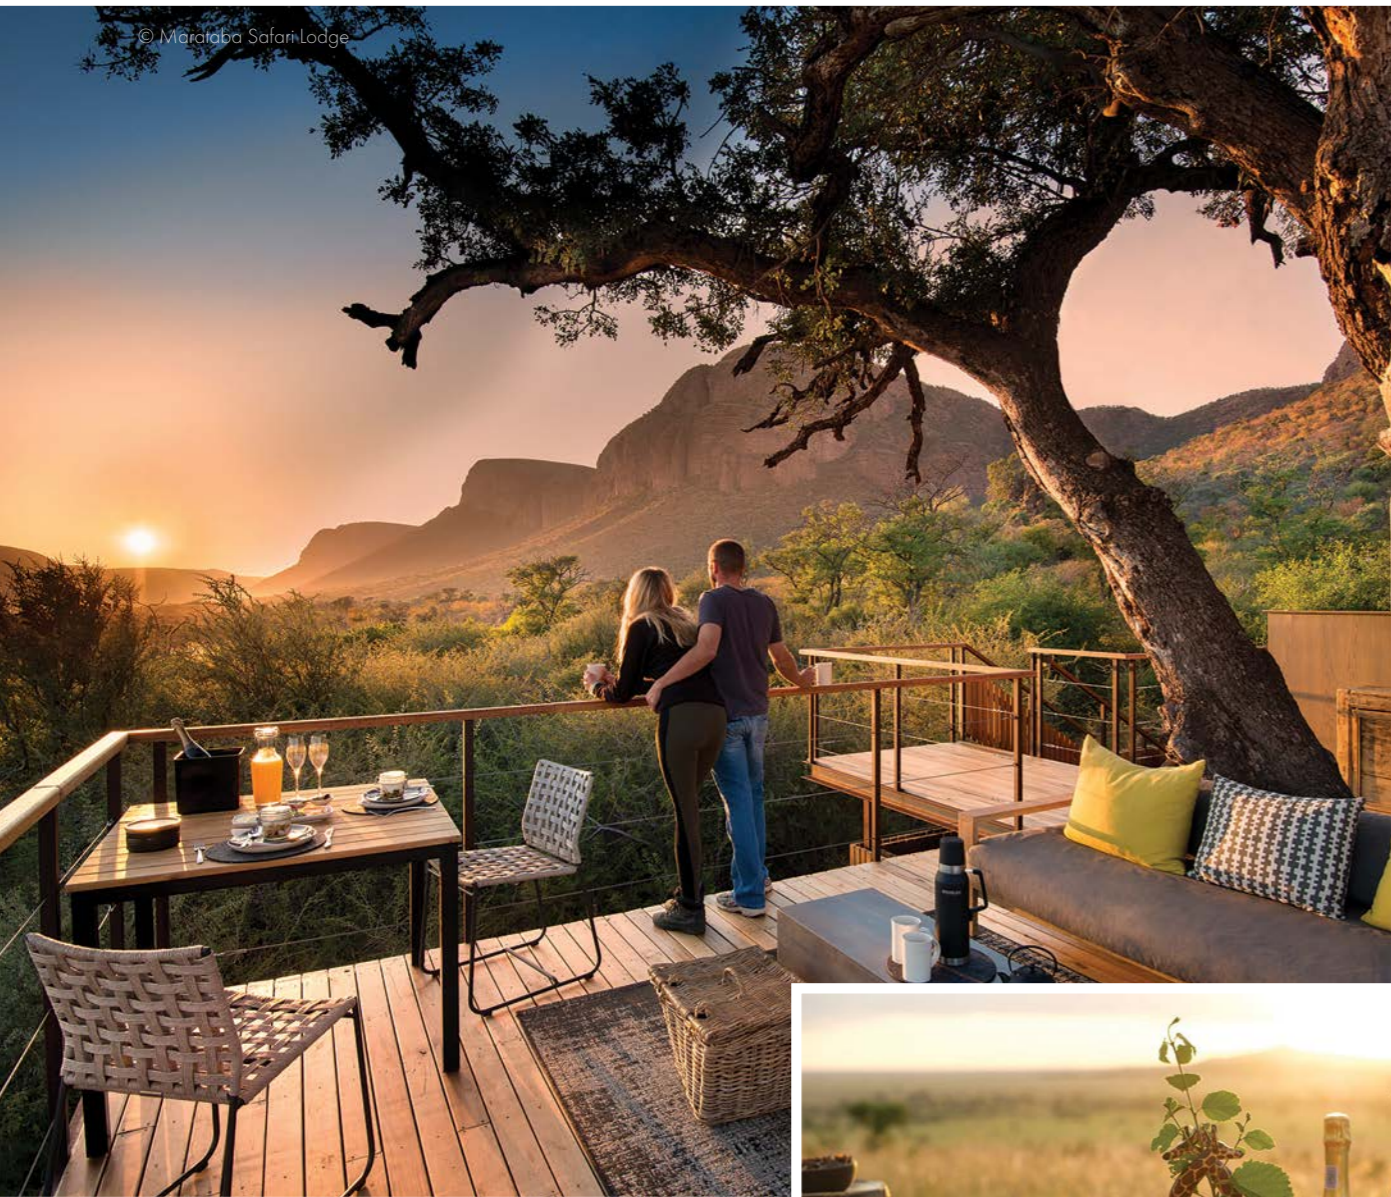

FAMILY SAFARIS

Traveling with kids? No problem! We have different options for the whole family. Some luxury lodges love to host kids and have a wide range of activities dedicated especially for the little ones. The kids will be safely looked after allowing the parents some alone time to enjoy the magic of Africa. Leave the city behind and connect with your family in a natural environment – moments and memories like these will last a lifetime.

HONEYMOON SAFARIS

Nothing says romance like an African sunset. Enjoy the magic of the wilderness next to your special someone and create memories that will last you a lifetime. A great option is to combine a luxury safari with a beach getaway.

PHOTOGRAPHIC SAFARI

A safari to some of the best destinations can provide countless opportunities to capture the wild moments through your lens. Travel to some of the best photographic destinations and position yourself to capture the ultimate scene, or request one of our photographic guides to enhance your technical abilities while shooting wildlife, as well as learning the trick of the post-processing and editing of your images.

PRIVATE GUIDING

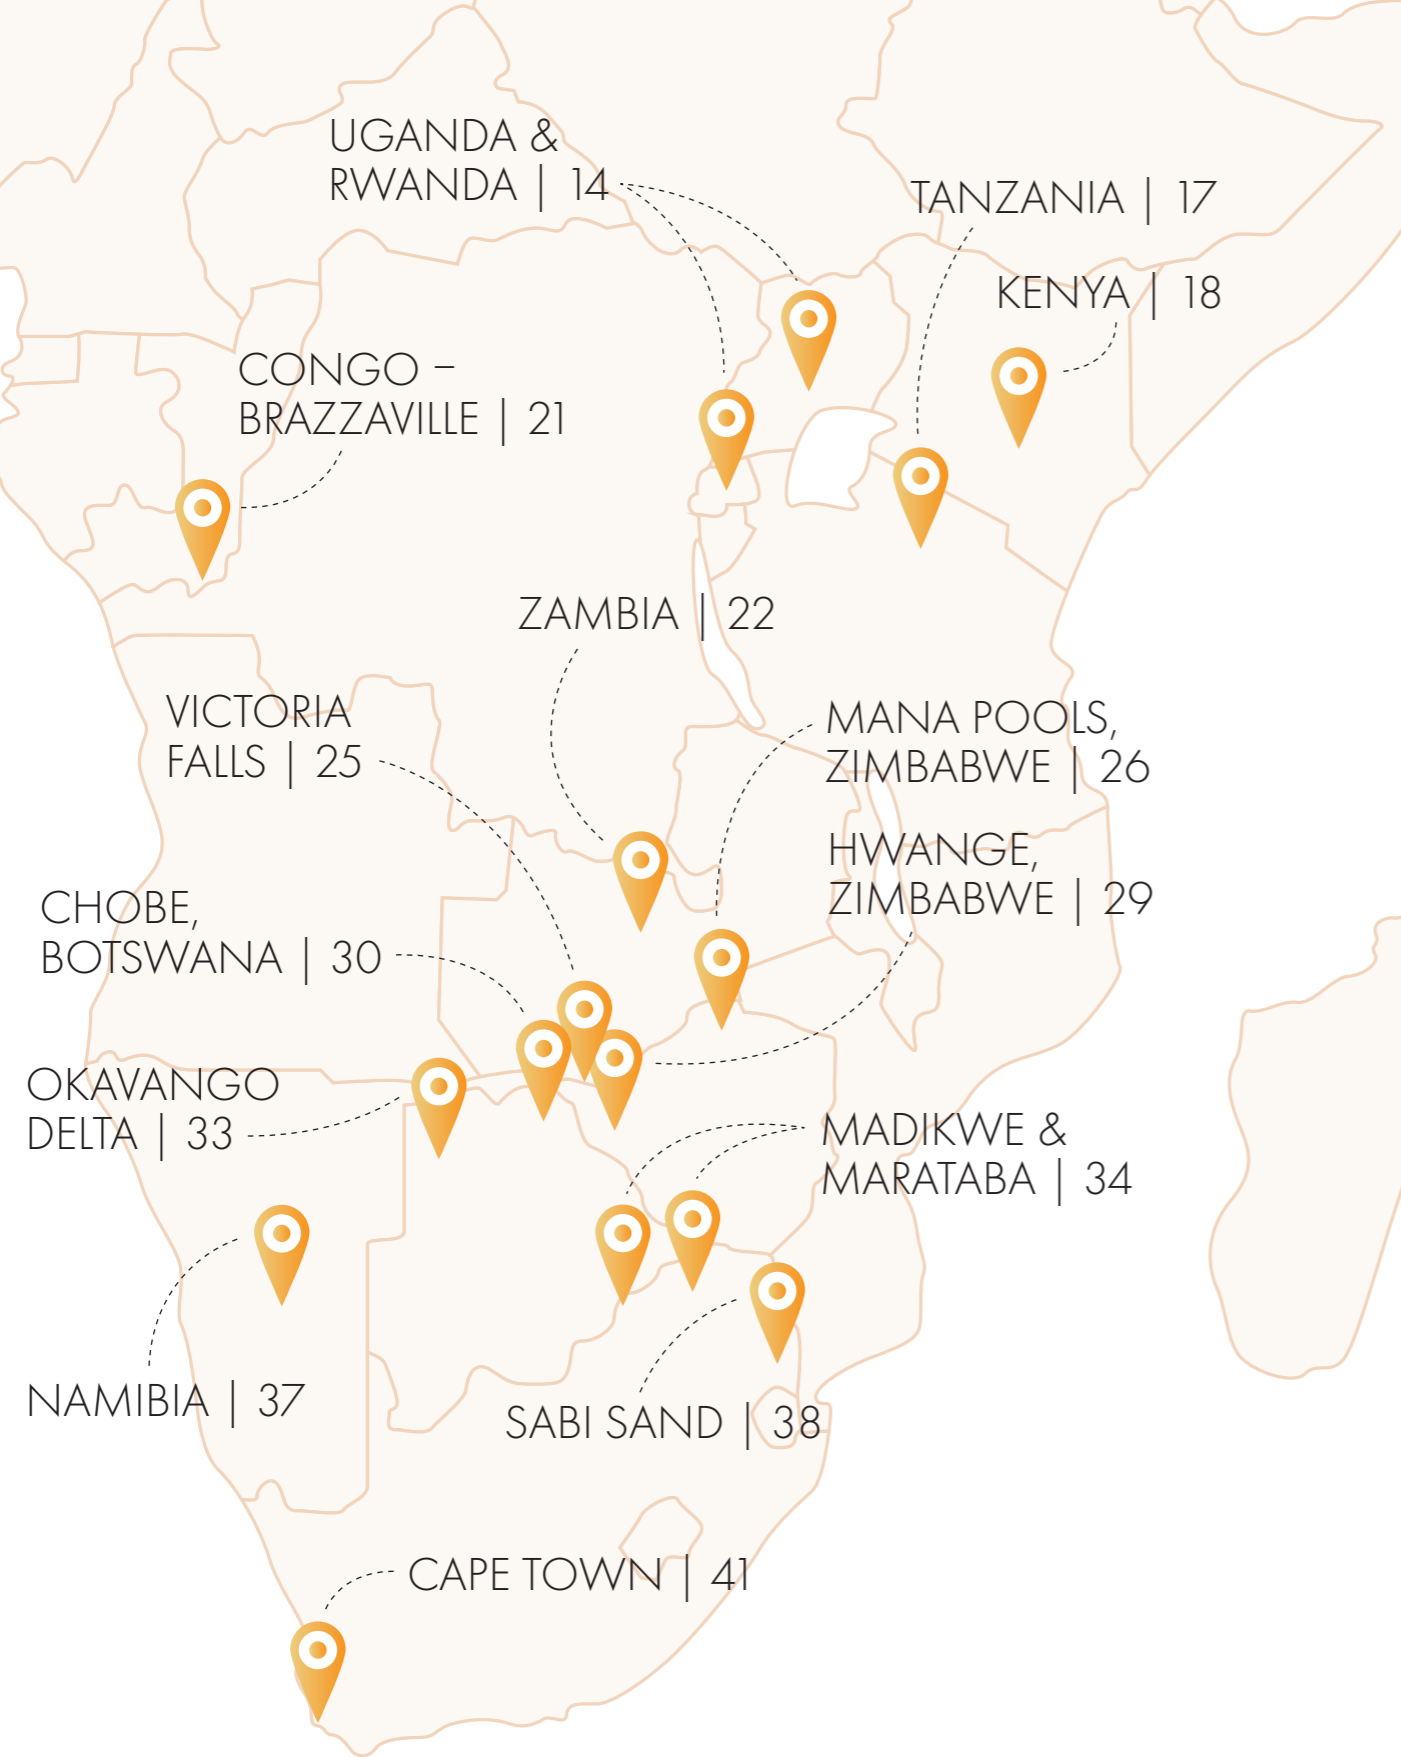

A privately guided safari is a great way to travel!. Our expert guides will facilitate your safari experience by accompanying you on your adventure from beginning to end.

This is a great option if you are travelling solo, would like to be accompanied by someone who can speak your language, if you are nervous of travelling to a certain location or if you would like to learn more. Our highly qualified and knowledgeable private guides will enhance your experience by helping you unravel the mysteries and pace of the natural world, taking in all what nature has to offer.

If you'd like a more personal approach to a safari or expedition, whether your focus is on wildlife photography, big cats, birding, African culture, our guides will enrich your experience while making sure everything is taken care of during your safari. All you have to do is enjoy the adventure.

We offer private guiding option for English, Spanish and Italian speaking guests thus ensuring that you get the most out of your nature experience.
